CLI Problems

Cassandra error while running new CLI script

- ERROR CleanseLogging$: Error cleansing 'sourceRecordId' value '': RequiredFieldError
- "Required value not provided for column: 'sourcePersonId'. Row dropped."

Solution

Every command must be run through docker

```
sudo docker run --rm --net host --name rahul -v /ssl:/ssl -v /media/edh1:/data -v $PWD:/app -w /app -it
-v  /home/ECOSMART/rahul.k-ext/.sbt:/root/.sbt -v  /home/ECOSMART/rahul.k-ext/sparklogs:/usr/local/spark/logs influence/spark-docker:1.6.2
```
